Objective

I am a passionate Web Designer and Front-End Developer with experience in building modern, responsive, and user-friendly websites. My goal is to contribute to innovative projects by leveraging my skills in HTML, CSS, JavaScript, and frameworks such as React and Next.js. I am looking for opportunities to work with international clients, helping them to achieve their business goals through effective and elegant web solutions.

Professional Experience

Web Designer | Intlab

March 2023 - Present

- **Design and Development of Visual Layouts for Websites:** Create visually compelling and user-friendly website designs that align with brand identity and client objectives.
- **Creation of Prototypes and Wireframes:** Develop wireframes and prototypes to outline website structure, navigation, and user experience before the coding phase.
- **Collaboration with Developers and Clients:** Work closely with front-end developers to ensure accurate implementation of designs and collaborate with clients to meet project goals and expectations.

Junior Web Developer | Avant Fiscal

July 2022 - December 2022

- Led the modernization of a legacy ASP Classic system API, transitioning it to a modern PHP structure.
- Designed and optimized SQL database queries to improve application performance.
- Integrated AWS services, ensuring seamless operation within the cloud environment.

Junior Web Developer | Freelance

July 2020 - December 2021

- Collaborated with senior developers on e-commerce websites and landing page projects.
 - Developed responsive and accessible user interfaces, ensuring optimal user experience.
 - Utilized WordPress, HTML, CSS, and JavaScript to create high-quality web applications.
-
